

SEMINAR ANNOUNCEMENT

Treatment of noise in industrial enclosures. Sound attenuation of the acoustic wave propagation through an acoustic screen

Prof. Claudia Tomozei

Tuesday 5 June 2018 at 14.30 "Aula B2 – Polo didattico Sud"

Abstract

The seminar will be organized as follows:

Introduction to Noise pollution; The Acoustic screen; Study case 1 - Determination of sound attenuation index; Study case 2 - The exterior noise impact on the activities developed in a teaching environment.

Speaker's short Bio

Prof. Claudia Tomozei is Lecturer at the
Environmental Engineering and Mechanical Engineering Department
Faculty of Engineering, Bacau (ROMANIA)

All interested people, particularly PhD students, are invited to attend the seminar
